

## Catalogue HARTING Siemens Solution Partner Add On Products

As a Solution Partner of Siemens HARTING offers custom-made and future-proofed solutions. Based on worldwide successful business of Siemens Automation and Drives.

Due to closed cooperation, qualification and certification and intensive know-how transfer we can offer products for the whole value-added chain - from standard products up to customized solutions. Specially for motor starter and frequency inverter we deliver approved infrastructure-solutions like connector sets or complete proofed cable assemblies.

We are able to offer in short term adaptations to specific requirements like extra cable protective tubes or electrical circuits.

### **Supplementary HARTING products of Siemens model range:**
